

# RTC AP22 File Conversion

The Ap22 files can easily be converted for use by either RTC Connect or any version of RTC CPR. This is accomplished in the AP22 code.

## Procedure

1. Download the latest version of AP22 code by visiting the [www.rtc-traffic.com](http://www.rtc-traffic.com) website and navigate to the page for AP22 software.
2. Download the zip file from the site and place it on your desktop.
3. Create a folder on your desktop named ap22temp.
4. Move the zip file to this newly created folder.
5. Unzip the zip file in to the newly created folder. There should be 10 files in this folder now. You may not be able to see all of them depending on how your system is setup.
6. Run the one called setup.exe. You may not see the extension exe depending on how your system is setup.
7. Start the AP22 software by clicking on it in the c:\rtc\ap22 directory, It is the one called "RTC AP22.exe". It has a green icon associated with it.
8. Go to Utilities in the software.
9. Go to Setup inside utilities.
10. Click the button 'Export to CSV Files'.
11. You are done. The exported CSV files are now in you c:\rtc\cpr3 directory. They are groups.csv, Locations.csv, dayplan.csv and steps.csv. They can be moved to whatever computer you desire to run them on.
